# What is ASL Training all about...?

## CREATING TRANSFERABLE SKILLS WHICH CAN BE USED TO ADD VALUE DIRECTLY

With our network of highly skilled and experienced trainers, we have the ability to offer you courses and consultancy which will provide life, functional and vocational training and skills.

This training can be provided in formats and venues to suit:

- One to One or Group
- At our class rooms or at your site
- Face to face, written or electronic media
- Via our world class consultancy services

We will tailor the courses to your needs, so that you obtain the best learning experience. Giving you real and hands on skills that will provide advancement in both life and work.

At ASL Training Ltd, our core company objectives are to provide courses that fit your ability, skills and learning styles, so that you can add direct value to your place of work or your own lifestyle.

ASL is totally customer focused; we pride ourselves in being a people orientated, learning organization.

When it comes to academic establishments; all of our courses can be adapted for your INSET, half day, or twilight training sessions.

## FLEXIBLE TEACHING ENVIRONMENTS

We can teach at a location that suits you; whether it's your place of work or at our training centre.

## 30 years of industry experience delivered to you via our world class consultancy & training services...

### KEY PERFORMANCE INDICATORS

**QUALITY:** All teaching is undertaken by industry professionals who are currently specialists in their own areas of work.

**VALUE ADD:** Skills and learning gained via ASL will provide direct value into your areas of work and lifestyle.

**FLEXIBILITY:** ASL is able to tailor the course(s) and styles of learning to the needs of the student.

**COST:** We maintain our services at competitive prices; at the same time ensuring quality is not compromised.

### CONTINUED PROFESSIONAL DEVELOPMENT

Professional Development courses can run alongside normal studies and be part of a course curriculum or follow postgraduate qualifications as a way of keeping you focused on improving your professional skills.

ASL can run a whole spectrum of CPD courses, ranging from Risk Assessment to Stress Management, or even a tailored made course suited to your needs.

### OUR EXPERIENCE

The ASL experience is one of enthusiasm and quality for our students; for our courses; and for our subject areas.

ASL Training Ltd is renowned for its attractive, specialist teaching structure thanks to the hard work put in by all of our staff. All of our teaching staff is chosen based on their current and specialist knowledge of their industries; so all the knowledge imparted onto our students is both current and is able to be put into use straight away.

Try a course with ASL and you will be surprised how we can develop your Ability, Skills & Learning.
